

Russell Stanworth

Golf Construction Project Manager

Russell has been involved in the golf course construction industry in various roles for the past 30 years, mostly in a construction supervisor/ project manager position. He has managed many prestigious projects in Europe, the Middle East, Africa and the Caribbean. These projects have varied greatly in scope of works, geology, climate and complexity. Contract values have been up to 48 million euros. A full list of projects he has been responsible for are listed below. New build works have included survey, clearance, bulk earthworks, civil works, lake construction, golf feature shaping and construction, drainage, automatic irrigation installation, grassing, landscaping and grow-in maintenance.
